Baudelet Environnement to take delivery of a Metso mobile shredder

Metso's dealer in France, Medimat, sold the unit.

Metso, based in Finland, has announced that it will ship an M&J Preshred 4000 from its factory in Denmark to **Baudelet Environnement**, based in Blaringhem, France, in December 2016.

Metso says it has enjoyed a successful year in the French market thanks to its French dealer, **Medimat**, based in Juvignac, which sold the M&J PreShred 4000 to Baudelet.

Baudelet Environnement is a large, privately held company that manages waste and metal recycling in 11 sites in the north of France and is a regular customer of Metso's sister company Metso Germany.
